BloomGo: Home Gardening and Flower Decoration App

Flowers, care and decoration at your door | Final Year Project (Bachelor), Mobile Application

Problem Statement

Home gardeners and event hosts do not know which flowers suit the season, how to care for them, or where to find a decorator. They must use separate apps and shops for care advice, gardener booking, event decoration and bouquets. BloomGo brings these into one app: it recommends seasonal flowers, sends a gardener or decorator to the home, supplies petals and bouquets, and follows up after one month.

Objectives

1) Recommend in-season flowers with care guides and precautions. 2) Book home gardening and ceremony decoration services. 3) Provide bouquets, gifts, petals and materials on demand. 4) Track every order by stage and check plant health after one month.

12 Modules (5 features each, about 2 weeks per module)

1. User & Role Management 4-role registration/login · Profile & addresses · Garden profile · Role-based screens · Account recovery	**2. Flower Knowledge Base** Flower catalog · Care & precautions · Search/filters · Favorites · Care chatbot	**3. Seasonal Recommender** In-season flowers · Location/climate match · Weather tips · Space suitability · Seasonal calendar
4. Garden Service Booking Service selection · Date/time slots · Garden photo upload · Price estimate · Reschedule/cancel	**5. Ceremony Decor Planner** Event type · Venue size & budget · Theme suggestions · Flower/petal estimate · Stage & entrance decor	**6. Bouquet & Gift Builder** Pick flowers/colors · 2D preview · Card message · Gift scheduling · Ready templates
7. Petals & Materials Store Product catalog · Cart · Petal calculator · Stock management · Order history	**8. Gardener & Job Management** Availability/skills · Job assignment · Accept/decline · Address & route · Completion report	**9. Order & Stage Tracking** Status stages · Live progress · Delivery tracking · Stage alerts · Ratings & reviews
10. Plant Health Follow-up 1-month reminder · Photo health check · Problem fixes · Revisit booking · Care schedule	**11. Payment & Billing** Pricing rules · Multiple payment options · Invoices · Discount codes · Refunds	**12. Admin Dashboard & Reports** Manage users/services · Sales reports · Seasonal trends · Complaints/reviews · PDF/Excel export
